

I am so dissappointed Jerry Lokers was fired today after a neverous break down and now he is rather well in jail we are all not happy with this. DO you like tennis. He was a very very good man until he got drunk. State Farm and All State you do not want to trust they suck! You need to be careful about which lawyers you pick because some could be very bad. You do not want that happening to you loosing and then getting sewed. They just don't go well together. One case that I had that was absolutly horrible was about a sweet lady who stopped where Gray Bar is and an ambulance cam at 50 miles PH thinking she was a stupid driver and was going to make the illegal turn. And so they didn't stop and smashed her TOYOTA truck like an accordian It was amazing to hear of such a thing And I'm telling you those people came out of the car and started yelling at her for not making that turn it was absolutly obserd.

Another one was about a guy that umm hit a lady and hit a ~~Truck~~ was a little HONDA and got toppled. It was an absolute disaster the lady was crushed everyhting was going wrong and later on she died and was paralized couqdn't eat or drink anything and was as skinny as a light switch. She was a very pretty woman and was totaly innocewnt.
